## Honeycomb Blinds

The Honeycomb Blind is made from a unique cellular fabric that is not only an efficient insulator but its crisp, horizontal pleats provide a very attractive, contemporary look.

All fabrics feature a duo-tone with only the white side to be seen from the outside. No matter what colours you select, your shades will have a clean, uniform appearance and all cords, seams and holes are hidden so they don't detract from the beauty of this blind.

[classicwindowfinishings.com.au](http://classicwindowfinishings.com.au)

## Roller Blinds

The clean, sharp lines of the Classic Collection of roller blinds create a distinctively minimalistic style, perfect for any contemporary decor.

We have a wide range of fabrics and colours from translucent to block out. Roller blinds are extremely versatile and can be fitted in a way which makes them unobtrusive when rolled up.

## Roman Blinds

A functional yet stylish look, the Roman Blind provides a clean and uncluttered effect.

The appearance of beautiful fabrics and the added dimension of classical folds create the elegance of this blind. With the added feature of a wide range of horizontal front exposed battens to suit your décor, this blind is sure to impress.

2

## Slimline Aluminium Venetian Blinds

The versatile and unobtrusive features of the 25mm wide slimline Venetian sets it apart from the others. This blind's distinctively fresh and minimalistic look coupled with its durable contemporary system will meet the needs of any style of décor or design.

## Timber Venetian Blinds

The warmth and aesthetic beauty of natural timber blinds will complement and enhance any décor scheme. And because it's wood, it is naturally insulating, easy to maintain and durable.

Only the highest grade of timber and the finest finishes are used to create our timber Venetians. A superior Australian componentry system ensures minimal maintenance – i.e. re-cording or re-laddering – is required at an early stage and means the Classic Collection of Timber Venetian Blinds is unsurpassed in quality.

[classicwindowfinishings.com.au](http://classicwindowfinishings.com.au)

## Vertical Blinds

Vertical window blinds have long been popular in Australian homes. They are sleek and elegant and can be used to screen both half-height and full-height windows and French doors.

Vertical lines also complement high ceilings and can make some rooms look bigger.

## Wideline Aluminium Venetian Blinds

With a range of solid, metallic, wood-grain and perforated slats to complement any décor, the 50mm aluminium Venetian is making a huge comeback.

Slats are treated with an oven-baked polyester enamel coating to ensure that the original colour and brightness are retained throughout the life of the blind. The horizontally louvring slats makes the Venetian one of the most preferred blinds installed in homes and offices today.

The Wideline Venetian enables light, privacy and view to be controlled by the tilt of a blade. This simple and easy-to-operate blind is the practical and stylish solution in any area.

## Woodstyle Venetian Blinds

Woodstyle Venetian Blinds are made from a special material which creates the appearance of timber but is even more durable.

This practical blind provides the feel and look of timber while boasting a hard wearing blade that will not chip, rust or peel. All blinds feature a sculptured fascia with colour coordinated ladder, cord and buttons. This understated yet decorative blind is suitable for any room in your home.

## Blockout Curtains

Classic Window Finishings have an extensive range of fashionable European designed fabrics. Our customers have had outstanding success with these fresh new products which have been extraordinarily well received by them.

Our extensive collection of textiles offers you functional and versatile solutions for your requirements whether you are dressing the windows of your home, holiday house, commercial interior, hotel or motel.

Offering textile solutions for both commercial and residential clients, our collection embraces an extensive variety of products, from hard-wearing cloths for high traffic environments to delicate sheers for residential homes.

[classicwindowfinishings.com.au](http://classicwindowfinishings.com.au)

## Sheer Curtains

Sheer curtains are a wonderful way to achieve that breezy, flowing feel in each room and help bring the outside in. They allow you to make the most of your natural light sources and circulate fresh air whilst shielding you and helping maintain your privacy.

Sheer curtains, sheers, sheer curtain panels, semi sheer curtains, sheer window curtains or sheer curtains panels are a wonderful year-round choice for your window decor.

Sheer curtains can be installed on their own or in conjunction with blockout curtains to create a versatile solution for your home in Perth or elsewhere in WA.

Quality products at an affordable price, delivered on time!

# Strand Curtains

Classic Window Finishing offers the Consumer or Commercial Customer the complete package.

Not only can we make one of these new Strand Sheer Curtain's to your specific requirements, we can also supply the actual curtain track itself, from Classic Window Finishing large range of high quality, Made to Measure Curtain track products. Looking for String Curtains? Two of the styles are Single and Double Strand 'String'.

The applications are endless!

## Panel Glide

Ideal for those large sliding or bi-fold door arrangements, these attractive large sliding panels are available in a wide range of fabric styles.

The size of the panels is determined by the number of panels you prefer, as they are tailor-made to fit the opening with panels overlapping to eliminate gaps.

## Pleated Glide

The Equi-Pleat™ Pleated Glide Blind system is a patented method of retaining the shape and appearance of pleated blinds, whatever the shape of window e.g. arches, skylights or sloping windows, etc.

The Equi-Pleat™ system creates and maintains equal spacing between the pleats of the blind, resisting the natural effects of gravity, which would ordinarily cause the fabric to bunch up at the base. Similarly, the pleats themselves are given a rigidity that ensures they stay in place and maintain the dimensional aspects of a pleated blind.

This system provides a beautiful pleated blind that is not only aesthetically pleasing, but can be operated smoothly and efficiently.

## Interior Timber Shutters

The warmth of real timber shines in both traditional and modern settings. Offering the most comprehensive range of shutters in Perth, Classic Window Finishings has products for even the most discerning customer.

Our range of shutters include:

- The complete package in our Standard Highprofile timber shutters range
- Premium American Hardwood Shutter, Highprofile Elite stands out with its unique specifications and craftsmanship
- Modern Wide-Slat Venetian, taking Venetians to the level of a shutter.

## Exterior

### Folding Arm Awnings

Folding Arm Awnings provide you with the ability to choose – let the sun come in, or have shade when you want it! Folding Arm Awnings can provide a large amount of shade – on demand without the need for post, pergolas or permanent structures.

Maximise sunlight during winter and extend your living space over summer. As well as being a fantastic design feature of your home or business a folding arm awning can add value to your property with an attractive and functional outdoor space.

Choose from a wide range of contemporary acrylic canvas or outdoor screen fabrics that are sure to compliment your home.

8

### Automatic Lock Arm Awnings Auto Awnings

Automatic lock arm awnings are the most popular exterior awning product of the Australian blinds market.

Classic Window Finishings manufacture Automatic lock arm awnings using high quality components in a range of fabric options. Auto Awnings in block out canvas provide a room darkening effect and are extremely efficient at reducing heat inside a room.

The block out canvas prevents the sun from hitting the window and the projection (angle) of the awning allows for air flow and for windows to still open.

Auto Awnings are suitable for ground floor installations over windows, patios and verandas where the awning can be operated by hand with the help of an awning stick.

The self locking arms make operation easy and helps the awning to stop where you want it to. Auto Awnings remain a timeless and classic window shading option at a very affordable price.

# Exterior Shutters

For years, Aluminium shutters have been the favourite of commercial and high-end architects around the world. Now this exciting product is available for your home.

## Aluminium Shutters: A wealth of possibilities

A rare combination of features gives Weatherwell shutters their ultimate versatility.

Weatherwell shutters transcend window treatments with their flexibility and possibilities. Why not replace traditional timber shutters with something more durable and take advantage of the added benefits of Aluminium. You can use Aluminium shutters in a number of ingenious ways:

### Endless possibilities

- Enclose a balcony
- Create an outdoor room
- Add security screens
- Give strength and durability in high traffic areas with kids or pets
- Hurricane and cyclone protection

## The Weatherwell Difference

### Strength and beauty

Weatherwell shutters means your investment will last.

### Bring the outside in

Weatherwell shutters help you maximize and utilize your indoor and outdoor living spaces.

### Flexible options

Weatherwell shutters are versatile and can be ordered to fit any window size.

### Peace of mind

Weatherwell shutters are strong and durable and can weather any storm, whilst maximizing security.

## Outdoor Blinds

Providing the perfect finish to any outdoor area, the stunning range of Outdoor Blinds Perth from Classic Window Finishings is second to none. Our outdoor blinds range is comprised of two similar yet distinct products – Ziptrak® and Zipscreen™.

### Ziptrak®

Ziptrak® is the ideal way to turn your outdoor area into an all weather lifestyle and entertainment centre and to entertain all year round.

Specially designed tracks on both sides of the blind enable the fabric to glide smoothly and easily – opening and closing in seconds and stopping anywhere you want to allow full control over the elements.

Choose from a large range of contemporary screening fabrics or high quality clear or tint PVC.

Ziptrak® blinds can be secured and locked in the down position to guard against high winds and UV – no zippers or buckles required, it's that simple.

### Operate from both sides

The unlocking handle can be mounted off-centre on the bottom bar to allow you to take advantage of this great addition to your Ziptrak® blind even in the trickiest of situations. Operation possible from both sides of the Ziptrak® blind! Lift the handle to release the latches on both sides of the bottom bar.

### So simple and quick to open and close, anyone can do it!

Easy-to-use Ziptrak® stops and stays in any position without locks using a special spring balance system. For extra ease of use, Ziptrak® is also available with remote operated electric motor, making a simple process even easier!

# Zipscreen™

## Overview

By allowing you to protect outdoor areas from the elements without blocking out the view, Zipscreen™ all weather blinds are the ultimate solution for any outdoor area or window.

This technology was designed to allow you to make the most of your alfresco entertaining areas, and can be installed as outdoor patio blinds, pergola blinds, balcony shade cloth blinds and more.

Zipscreen™ sunshade blinds can be used in both residential and commercial applications, completely customised from a range of colours, with control systems and enclosed box covers to suit your preferences.

[classicwindowfinishings.com.au](http://classicwindowfinishings.com.au)

## Technology

Zipscreen™ external roller blinds are secured using patented zLOCK technology to ensure that the fabric holds taut and prevents any bugs or debris from getting through. Hidden interlocking parts have been developed to work with self-aligning side channels, providing seamless operation and a sleek, stylish finish. The side channels also continuously tension the roller fabric, reducing sagging and ripples.

Every set of external shade blinds is customised to ensure the perfect fit. Essentially, Zipscreen™ ensures total privacy and year-round protection from sun, wind, rain and insects.

In this way, these alfresco blinds are a sleek, secure and durable improvement upon traditional awnings and outdoor roller shutters. They can even be used as sunshade blinds for home and office windows, blocking out sun heat before it can be absorbed by window panes.

## Motorised Remote Control Blinds

Requests for the motorisation of blinds have increased steadily over recent times in both residential and commercial applications. In some cases buildings are being pre-wired at the construction stage to provide the option of motorisation of the window treatments if required at a later stage. The added benefit of motorisation enables the remote control of blinds either with pre-set timer or at the touch of a button.

Suitable For:

Venetian Blinds, Awning Shades, Honeycomb/Pleat Blinds, Roller Blinds, Roman Blinds, PVC Ziptrak®.

# Commercial

Classic Window Finishings is well known and well respected in the commercial building sector in WA and regularly provides window dressing solutions for properties such shops, offices, showrooms, restaurants and hotels. Virtually everything in our residential range can be adapted for commercial applications.
